CUSTOMER DIET REQUEST INFORMATION					
Item	Base Diet	Compound/Medication (exact compound being provided & purity of the compound)	Concentration		Diet Form
Ex.	LabDiet 5001	Avandia (containing rosiglitazone + fillers)	10	mg/kg diet	½" Pellet
1				Please Select	Please Select
2				Please Select	Please Select
3				Please Select	Please Select
4				Please Select	Please Select
<p>Please read: If providing a tableted or capsulated compound, please indicate the concentration based on the tablet being provided, not the amount of active compound within the tablet or capsule. To determine purity, divide the mg of active compound by the average weight(mg) of ~10 tablets. [ie. (80mg active tablet/200 mg average tablet weight)*100 = 40% purity]. This can then be used to determine how much of the tableted/capsulated compound (active ingredient +filler) must be used to obtain the desired level in the feed. Example: If you have a talbet that contains 40% active drug, and need 250 ppm active drug in the diet you will need 625 ppm of the tableted/capsulated compound in the diet {[250 ppm/(0.4)] = 625 ppm}.</p>					
NEW OR EXISTING FORMULA		IRRADIATION		COLOR CODED	
New diet formula required		Non-irradiated		Yes. Indicate under additional notes	
Reordering Existing diet		Finish Product Irradiated (Diet w/ compound)		No	
				Colors include: red, green, dark blue, light blue, brown, yellow, orange and purple	
Additional Notes					

We hereby certify to PMI Nutrition International, LLC, and its parents, subsidiaries, and affiliates ("PMI") that:

- The feeding of diet(s), dosing of medications/compounds, and all research conducted using this diet/these diets produced by TestDiet® and procured by us will be done in accordance with (a) all United States federal, state, and local statutes, rules, and regulations, including, without limitation, the applicable provisions of Sections 505, 507, and 512 of the Federal Food, Drug, and Cosmetic Act, as amended, and the regulations under the Act; and, will be supervised by personnel with appropriate academic and/or professional accreditation and/or expertise.
- Any diet so procured by us will be used only for *in vitro* or laboratory animal research. Any and all animals that have been fed any such diet or any products derived from said animals will not be used for food purposes at any time.
- It is lawful to order, purchase, transport, import and use the diet(s) under the laws of any country or political subdivision that has jurisdiction over this transaction. We will not sell, transfer, donate, or otherwise supply the diet(s) to any other person or entity. All unused portions of any such diet(s) will be destroyed in accordance with the laws, rules and regulations of all applicable international organizations, countries or other political subdivisions.
- We release PMI from any and all liability of any kind whatsoever, and indemnify and hold PMI harmless, for any damage to animals, humans, or property resulting from any use, misuse, and/or disposition of the diet(s).

We further understand and agree that we must supply a Material Safety Data Sheet (MSDS), a Generally Regarded as Safe (GRAS) certificate, or similar technical data for every such compound to be added to a diet; and, the addition of any such compound is solely at the discretion of and subject to the approval of PMI.

By completing this page you acknowledge the information is correct and authorize TestDiet® to manufacture diets according to the specification indicated on this form. All information will remain confidential.
